Product Specifications

Wavelengths	415nm:590nm:660nm:850nm=1:1:1:1
LED Color	Bule light, Yellow light, Red light, Near-infrared light
LED Qty	122pcs
Power Consumption	8W
Dimensions	310x207x4.5mm
Product Weight	0.38kg
Beam Angle	105°
USB	Type-C USB
Input Voltage	5V 2A
Battery Capacity	5000mAh/7-10 times
Product Function	6 Skincare Modes, Brightness Adjustment, Pulse Function

IMPROVES OVERALL SKIN BRIGHTNESS

LED Silicone Facial Mask

This product is made of food-grade silicone material, which is safe, reliable, and easy to clean. The interior uses a flexible circuit board (FPC), which can be moderately folded. The human body bionic controller design, LED digital display screen, button operation, simple and reliable control, rechargeable battery, and a USB-A port with power bank function are specially set. The 6 skincare modes can be used to address various skin problems, from beauty to sleep, and provide comprehensive phototherapy services for your skin.
