About Our Pharmacy

WeCare Pharmacy is a full-service compounding and specialty pharmacy committed to providing safe and effective medications to you and your family. Our mission is to craft custom medications that improve your well-being, optimize your health, and fit your unique needs. Our specially trained pharmacists prepare personalized formulas that can accommodate a variety of allergies, physical limitations, and dosage requirements.

Our state-of-the-art compounding lab was designed to meet the highest United States Pharmacopia (USP) safety standards and is regularly inspected by the State of Virginia Board of Pharmacy. As a pharmacy that has been voluntarily inspected by VPP, we continually meet the quality standards set in place by the National Association of Board of Pharmacy so that we can better serve our out-of-state clients.

Safety is Our Top Priority

At WeCare Pharmacy, patient safety is at the forefront of our operations. Our strict safety protocols ensure each prescription is thoroughly inspected and passes a series of stringent tests before leaving our lab and arriving at your door.

Delivering Peace of Mind

Our compounds are regularly end-product tested for strength, potency, and sterility at an FDA-registered laboratory to ensure our patients consistently receive the highest-quality medications.

A member of our dedicated team is always available to answer questions about our facility, ingredients, and inspection procedures.
